Issued on 12th April 2024 by Seasonal forecasting Division of the Department of Meteorology, Sri Lanka.

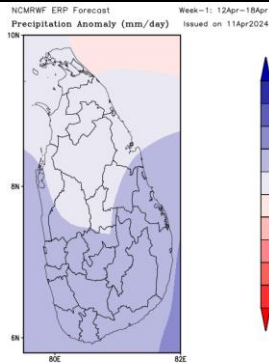

Weekly Rainfall anomaly

Source –NCMRWF

Updated on 11th March 2024

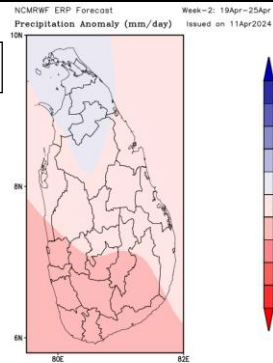

12-18 April 2024

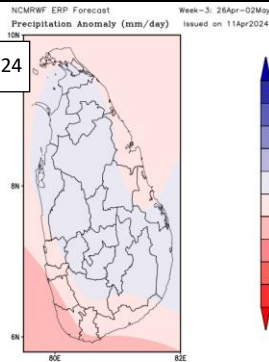

Above normal rainfalls are likely over Western, Southern, Sabaragamuwa and Uva provinces and some areas in Eastern, Central and Northwestern provinces and Polonnaruwa district. Near normal rainfalls are likely over elsewhere of the country.

19-25 April 2024

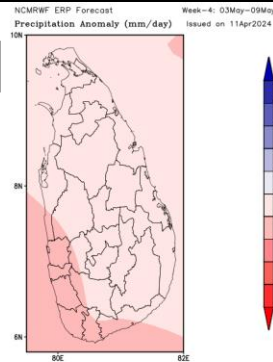

Below normal rainfalls are likely over Western and Southern provinces and some areas in Sabaragamuwa, Central and Uva provinces. Near normal rainfalls are possible over remaining areas of the country.

26 Apr-02 May 2024

Near normal rainfalls are possible over most parts of the country except southwestern coastal areas, where below rainfalls are likely.

03-09 May 2024

Below normal rainfalls are likely over Western and Southern provinces. Near normal rainfalls are possible over remaining areas of the country.
